## Two Ways That Volatile Energy Costs Fuel Inflation

Energy prices can fluctuate dramatically based on changes in supply or demand. According to the Consumer Price Index (CPI), energy prices across the economy fell 2.5% in October and 2.3% in November, following a surge of 7.2% over the previous two months. Gasoline prices fell 5.0% in October and 6.0% in November, providing relief after a painful summer spike of 14.3%. In fact, rapid swings in gasoline prices were often a key contributor to the monthly changes in CPI in 2023.

When energy costs are high, it can also impact inflation indirectly, as many businesses that rely on energy to produce and transport goods, or to provide services, may have to raise the prices they charge consumers.

**\*The CPI-U energy index tracks prices for motor fuels such as gasoline and diesel; fuel oil and propane (used for residential heating); and utilities, including natural gas and electricity.**

# Key Retirement and Tax Numbers for 2024

Every year, the Internal Revenue Service announces cost-of-living adjustments that affect contribution limits for retirement plans and various tax deduction, exclusion, exemption, and threshold amounts. Here are a few of the key adjustments for 2024.

## Estate, gift, and generation-skipping transfer tax

- The annual gift tax exclusion (and annual generation-skipping transfer tax exclusion) for 2024 is \$18,000, up from \$17,000 in 2023.
- The gift and estate tax basic exclusion amount (and generation-skipping transfer tax exemption) for 2024 is \$13,610,000, up from \$12,920,000 in 2023.

## Standard deduction

A taxpayer can generally choose to itemize certain deductions or claim a standard deduction on the federal income tax return. In 2024, the standard deduction is:

- \$14,600 (up from \$13,850 in 2023) for single filers or married individuals filing separate returns
- \$29,200 (up from \$27,700 in 2023) for married joint filers
- \$21,900 (up from \$20,800 in 2023) for heads of households

The additional standard deduction amount for the blind and those age 65 or older in 2024 is:

- \$1,950 (up from \$1,850 in 2023) for single filers and heads of households
- \$1,550 (up from \$1,500 in 2023) for all other filing statuses

Special rules apply for an individual who can be claimed as a dependent by another taxpayer.

## IRAs

The combined annual limit on contributions to traditional and Roth IRAs is \$7,000 in 2024 (up from \$6,500 in 2023), with individuals age 50 or older able to contribute an additional \$1,000. The limit on contributions to a Roth IRA phases out for certain modified adjusted gross income (MAGI) ranges (see *table*). For individuals who are active participants in an employer-sponsored retirement plan, the deduction for contributions to a traditional IRA also phases out for certain MAGI ranges (see *table*). The limit on nondeductible contributions to a traditional IRA is not subject to phaseout based on MAGI.

### MAGI Ranges: Contributions to a Roth IRA

	2023	2024
Single/Head of household	\$138,000–\$153,000	\$146,000–\$161,000
Married filing jointly	\$218,000–\$228,000	\$230,000–\$240,000
Married filing separately	\$0–\$10,000	\$0–\$10,000

### MAGI Ranges: Deductible Contributions to a Traditional IRA

	2023	2024
Single/Head of household	\$73,000–\$83,000	\$77,000–\$87,000
Married filing jointly	\$116,000–\$136,000	\$123,000–\$143,000

Note: The 2024 phaseout range is \$230,000–\$240,000 (up from \$218,000–\$228,000 in 2023) when the individual making the IRA contribution is not covered by a workplace retirement plan but is filing jointly with a spouse who is covered. The phaseout range is \$0–\$10,000 when the individual is married filing separately and either spouse is covered by a workplace plan.

## Employer-sponsored retirement plans

- Employees who participate in 401(k), 403(b), and most 457 plans can defer up to \$23,000 in compensation in 2024 (up from \$22,500 in 2023); employees age 50 or older can defer up to an additional \$7,500 in 2024 (the same as in 2023).
- Employees participating in a SIMPLE retirement plan can defer up to \$16,000 in 2024 (up from \$15,500 in 2023), and employees age 50 or older can defer up to an additional \$3,500 in 2024 (the same as in 2023).

## Kiddie tax: child's unearned income

Under the kiddie tax, a child's unearned income above \$2,600 in 2024 (up from \$2,500 in 2023) is taxed using the parents' tax rates.

# Extreme Weather and Your Home Insurance: How to Navigate the Financial Storm

With wildfires in Maui, Hurricane Idalia in Florida, and the heat wave that blanketed the South, Midwest, and Great Plains, 2023 was a record-setting year for extreme weather in the United States. In fact, last year the U.S. saw more weather and climate-related disasters that cost over \$1 billion than ever before.<sup>1</sup>

As a result of these extreme weather events, many insurance companies have begun to raise rates, restrict coverage, or stop selling policies in high-risk areas. This has left homeowners in a precarious situation when it comes to home insurance, as many are now faced with higher premiums, lower home values, and the possibility of the nonrenewal of their policies.

If you live in an area that is susceptible to extreme weather events, you'll want to be prepared for the possible disruption of your home insurance coverage. The key is to act quickly so that you can manage your financial risk and help make sure that your home is protected.

## Handling a nonrenewal

Depending on the state you live in, if your insurer chooses not to renew your coverage, they generally have 30 to 60 days to send you a notice of nonrenewal. Your first step should be to contact your insurer and ask why your policy wasn't renewed. They may reverse their decision and renew your policy if the reason for nonrenewal can be fixed, such as by installing a fire alarm system or fortifying a roof.

If that doesn't work, you should begin shopping for new coverage as soon as possible. Start by contacting your insurance agent or broker or your state's insurance department to find out which licensed insurance companies are still selling policies in your area. You can also try using the various online comparison tools that will allow you to compare rates and coverage amongst different insurers. Finally, ask for recommendations for insurers from friends, neighbors, and coworkers who live nearby.

## Consider high-risk home insurance

If your home is deemed to be at high risk due to its geographic area, you may want to look for an insurance company that specializes in high-risk home insurance.

High-risk policies often have significant exclusions and policy limits and are more expensive than traditional home insurance policies. However, they can provide coverage to a home that might otherwise be uninsurable.

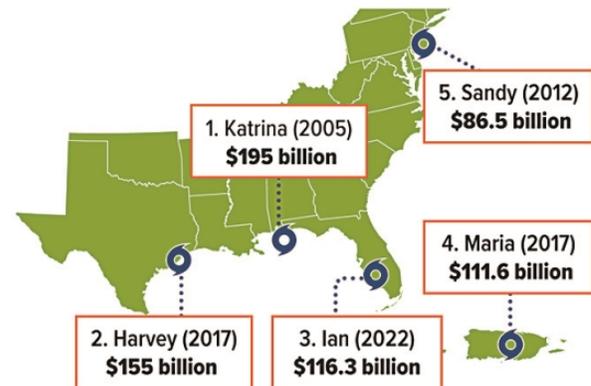

## Use a FAIR plan as a last resort

If you have trouble obtaining standard home insurance coverage, you may be eligible to obtain coverage under your state's Fair Access to Insurance

Requirements (FAIR) plan. Many states offer homeowners access to some type of FAIR plan.<sup>2</sup>

FAIR plans are often referred to as "last resort" plans, since homeowners who obtain insurance through a FAIR plan are usually not eligible for standard home insurance coverage due to their home being located in a high-risk area. Coverage under a FAIR plan is more expensive than standard home insurance and is fairly limited — it usually only provides basic dwelling coverage, although some states may offer other coverage options for things like personal belongings or additional structures. In addition, most states require you to show proof that you have been denied coverage before you can apply for a FAIR plan.

## Avoid expensive force-placed insurance

If you have a mortgage, your lender will require your home to be properly insured. If you lose your home insurance coverage or your coverage is deemed insufficient, your lender will purchase home insurance for you and charge you for it. These types of policies are referred to as "force-placed insurance" and are designed to protect lenders, not homeowners. They usually only provide limited coverage, such as coverage for the amount due on the loan or replacement coverage if the structure is lost.

Force-placed insurance policies are typically much more expensive than traditional home insurance, with the premiums being paid upfront by your lender and added on to your monthly mortgage payment. Your lender is required to give you notice before it charges you for force-placed insurance. In addition, you have the right to have the force-placed insurance removed once you obtain proper home insurance coverage on your own.

# The Federal Reserve's Key Meeting Dates in 2024

The Federal Reserve's rapid series of interest rate hikes throughout 2022 and 2023 — initiated in an effort to bring down red-hot inflation — rippled throughout financial markets and the broader economy.

People pay attention to the "Fed" to see where interest rates are headed, but also for its economic analysis and forecasting. Members of the Federal Reserve regularly conduct economic research, give speeches, and testify about inflation and unemployment, which can provide clues about where the economy is going. This information can be useful for consumers when making borrowing and investing decisions.

## Eight meeting dates in 2024

The Federal Open Market Committee, or FOMC, is the arm of the Federal Reserve responsible for setting monetary policy. It typically meets eight times per year.

Month	Dates	Month	Dates
January	30–31	July	30–31
March	19–20*	September	17–18*
April/May	30–1	November	6–7
June	11–12*	December	17–18*

\*Meeting includes a Summary of Economic Projections

Because financial markets often react to FOMC meeting decisions, knowing the scheduled meeting dates ahead of time might be helpful when digesting economic news. The minutes of regularly scheduled FOMC meetings are released three weeks after the meeting date on [federalreserve.gov](https://www.federalreserve.gov).

## The Fed's key objectives

The Federal Reserve System was created by the Federal Reserve Act of 1913. The Fed is charged with three main objectives: maximum employment, stable prices, and moderate long-term interest rates. The first two objectives are often referred to as the Fed's "dual mandate." Over the years, the Federal Reserve's duties have expanded and evolved to include maintaining stability of the entire U.S. financial system.

After its brisk series of rate increases in 2022 and 2023, the Fed has held the federal funds rate mostly steady. Going forward, it will continue to monitor economic data — including inflation, employment growth, bank sector stress, and credit conditions — as it determines future moves.

The federal funds rate is a benchmark rate that influences other interest rates throughout the economy, such as for mortgages, credit cards, and business loans. A higher federal funds rate typically drives up the cost of borrowing.
